

KYRAN STAGG

Software Engineer

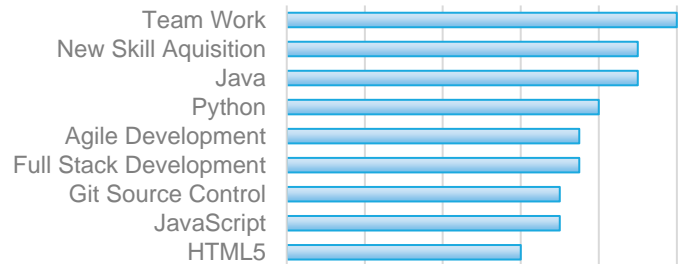

PROFILE

I am a well-organized, creative, and team-oriented software engineering professional. I have experience working in full stack development, both individually and in agile teams. I have a track record of delivering top quality solutions using Java, Python and JavaScript in both commercial, study and personal environments.

SKILLS

WORK EXPERIENCE

REMOTE SOFTWARE DEVELOPER

Rides.co, Christchurch, New Zealand

January 2020 – Present

I am working in a small team of three developers to migrate, maintain and create new features for the progressive web application *rides.co* (formerly *porky.co*) for *Harley Davidson NZ*. Without the previous code base, we re-created the experience of the old site using *Django*, *JavaScript*, *SQLite*, *Bootstrap* and *AWS* while also adding our own new features. I was mainly responsible for the new QR check-in systems, GDPR compliance and *Modal* element implementations which were deployed through *AWS* using *Elastic Beanstalk*.

FRESH FOODS ASSISTANT

Countdown Supermarkets, Christchurch, New Zealand

August 2013 – December 2019

I was responsible for providing customers with outstanding service while mainly maintaining the produce sections of the store. This included but was not limited to; quality control, product knowledge, health and safety practices and most importantly teamwork. I trained with many additional departments including Checkouts, Nightfill, Longlife, Deli and Bakery.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

2016—2019

University of Canterbury, Christchurch, New Zealand

Graduated in April 2020
